BLOOD STOP POWDER

DIN 00236306

Indications:

Blood Stop Powder is indicated to check bleeding of minor cuts and wounds.

Dosage & Administration:

Apply freely to the wound area. Bandage in place if necessary. After bleeding has stopped, apply again to prevent further bleeding. Do not disturb the scab formed, as this might start the bleeding process again.

Caution(s):

It is advised to give tetanus antitoxin as a precautionary measure. For external use only.

Contents:

84 % Iron Sulfate (Monohydrate)
1 % Tannic Acid
5 % Ammonium Alum
0.1 % Thymol Iodide
in a Talc base.

Presentation:

60 gram, 200 gram & 400 gram bottles
12 bottles/carton
