DIRECTIONS FOR USE:

Knock Down Dust Devil Crawling & Flying Insect Control & Killer Dust is formulated using food-grade fresh water Diatomaceous Earth (DE) and Pyrethrins from chrysanthemum flowers. DE is a form of amorphous silica that consists of fossilized remains of diatoms belonging to a major group of algae.

How it Works: Insects have a thin covering of wax on their body that helps to prevent water loss. When an insect contacts Knock Down Diatomaceous Earth, the DE damages the protective waxy covering on the insect, resulting in rapid water loss (dehydration) and eventual death. Pyrethrins are a botanical active ingredient which have been combined with the DE. When an insect comes in contact with the Pyrethin coated DE, the Pyrethin attacks the nervous system of the insect to quickly kill it.

TO CONTROL:	APPLICATION PROCEDURE:
<p><u>INDOORS:</u> Ants, certain beetles, boxelder bugs, cockroaches, crickets, flies, flying moths, gnats, mosquitoes, silverfish, wasps.</p> <p>Bed bugs</p> <p>Fleas</p>	<p>Gently shake or squeeze the container to lightly coat the areas where insects crawl and hide, especially behind refrigerator and stove. Rate of application is 40 g per 10 square metres of surface area. Hit the insects where possible.</p> <p>Disassemble beds and dust frames, joints, mattresses, tufts and seams, floors and baseboards. Hit insects directly where possible. Repeat treatment as necessary.</p> <p>Thoroughly dust sleeping quarters of pets and surrounding cracks, crevices, carpeting and baseboards. Hit insects directly where possible. Repeat as necessary. Do not dust pets.</p>
<p><u>OUTDOORS:</u> Ants, centipedes, crickets, earwigs and millipedes,</p>	<p>Lightly coat the areas where these pests are found or may hide including patios, windows, door frames and sills outside of entrance ways, around foundations and along ant trails. Hit insects directly where possible. Repeat treatment as necessary.</p>

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. Do not use as a general space spray. Avoid breathing dust. Avoid contact with skin, eyes and clothing. Wash hands well after use. Do not contaminate feed, food, drinking water, utensils, and fish bowls. This product is toxic to fish. Keep out of lakes, streams or ponds. This product is not intended for human or animal consumption. Do not consume.

DISPOSAL:

Do not re-use empty container. Wrap and dispose of empty container in household garbage.

FIRST AID:

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If on skin or clothing**, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If swallowed**, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If inhaled**, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product
