LANOVET OINTMENT

DIN 00509043

Indications:

A soothing emollient ointment for use in the treatment of minor external teat injuries, fissures, and chapped teats of cattle.

Dosage & Administration:

Lanovet Ointment may be applied freely after each milking. When teats are painful and swollen, apply sparingly just before milking to give relief and permit easier milking.

Caution(s):

In case of deep or puncture wounds consult a veterinarian. If redness, irritation or swelling persists or increases, discontinue use and consult a veterinarian.

Each gram contains:

2.0 % Methyl Salicylate
5.0% Lanolin
in a petroleum base.

Presentation/Packing:

400 gram jar; 12 jars/carton

2 kg pail; 4 pails/carton
