

# Prima<sup>®</sup> Mist Sprayer

*Prima Mist Sprayer and Replacement Foam Tip  
Syringe sold separately*

Item #	Description
353597	Prima Mist Sprayer
364876	Prima Mist Replacement Foam 12pk

## Purpose

The Prima Mist sprayer is a great addition to our line of syringe accessories. It is engineered for tough multi-use applications. The sprayer screws on to any Prima vaccinators or BMV. It is not suggested for use with syringes over 2 mL or the fast fit system on Prima BMVs. Applications range from intranasal vaccinations to topical antiseptics and anesthetics.

## Features

- Intranasal and topical applications
- Molded from chemically resistant clear Tritan™ material
- Wide dispersion rate, with an average particle size of 50-65 microns
- Independently lab test show a superior product in performance and durability

## Replacement Foam Tips

The Prima Mist's Foam Tip is designed to be gentle on the animal's nasal passage during dosing and reduces the possibility of blow back from the nostril.
