

ROJO COMPACT FLOAT VALVE

PRODUCT INFO

[COMPACT] FLOAT VALVE

20 L / MIN

Description

Rojo Compact Valves are float operated valves for automatic filling of water storage vessels. The Rojo Compact can be **mounted above or below water level**. It is a simple mechanically operated valve. The **Rojo Compact** is the optimal choice for **low flow** when space is limited as the narrow weighted float makes for a compact versatile design.

Applications

Maintaining water levels in:

- Animal drinking troughs
- Water storage tanks
- Water Cisterns
- Process applications

Flow Graph

Features

- Fits in Compact spaces
- Float no wider than valve
- Multiple Mounting Positions
- Fully Adjustable Float
- Non-corrosive Material
- Flow stops when unscrewed
- Pressure range 0-10 Bar (0-150 PSI)
- Non corrosive material construction
- Has switch to lock valve in off position
- Helps to minimise water hammer

Mounting Positions
