MOSQUITO SHIELD Smart Insect Lantern

USE:

The Mosquito Shield™ MS0500 smart insect lantern provides effective protection for both indoor and outdoor spaces. Compact, water-resistant (IPX4) and rechargeable, it attracts insects with its blue UV light and instantly eliminates them using a powerful 4,200-V high-voltage grid.

CONTROL:Designed to attract and eliminate mosquitoes, flies and moths, the lantern effectively combats most flying nuisance insects, allowing you to fully enjoy your evenings both inside and outside.

KEY FEATURES:Its built-in rechargeable battery offers up to 14 hours of runtime, and the foldable hanging ring makes it easy to position the lantern wherever insects tend to gather. Choose from three lighting modes — blue zapping light, ambient flame light, or blue ambient light — to enjoy effective protection while creating the perfect atmosphere. The powerful electrified grid, multiple lighting options and removable insect-collection tray make cleaning quick and easy. Each lantern includes a USB-C charging cable and a cleaning brush for fast maintenance.

Knock Down® ANT ATTACK Ant Foam – 400 g

USE:

Shake well. Use the extension tube. This product is designed for application into cracks, crevices, voids, and narrow hard-to-reach spaces where the insecticidal foam will not be wiped away. The foaming action fills the gaps completely and leaves behind an active insecticidal residue.

CONTROL: This product is intended for eliminating ants, cockroaches, and earwigs indoors; outdoors on exterior building surfaces, patios, verandas, and decks; and for general outdoor residential use as indicated.

ACTIVE: Permethrin 0.25%

Code	Description	Packaging	Box
KD107D	ANT ATTACK foam 400g	1	12

Knock Down® ANT ATTACK Ant Powder – 200 g

USE:

Knock Down Diatomaceous Earth Powder is a natural* solution to which insects cannot develop resistance. Knock Down Dust Diatomaceous Earth is an essential component of any good integrated pest management program.

- Natural, odourless, and non-staining
- Food-grade diatomaceous earth

CONTROL: Ants and other insects such as earwigs, cockroaches, beetles, spiders, fleas, silverfish, bed bugs, crickets, and stored-product insects. Kills ants within 2 days.

ACTIVE: Silicon dioxide (present as 100% diatomaceous earth): 91.1%

Code	Description	Packaging	Box
KD165D	ANT ATTACK Killer Dust 200g	1	12

Knock Down® Wasp & Hornet Foam Spray

- Non-staining
- Kills wasps, yellow jackets, and hornets on contact
- Provides quick knockdown and residual action to kill wasps and hornets returning to the treated nest
- Reaches nests over 20 feet above the ground
- Custom cap with holder for the extension tube
- 360° spray action

*Do not use indoors or on humans or animals.

ACTIVE: D-Phenothrin 0.20% / Tetramethrin 0.20%

Code	Description	Packaging	Box

COMMERCIAL INSECTICIDES

Starbar® Fly Bait Station

- Easy to use
- Designed for use with fly baits
- Eliminates loose bait debris on the ground
- Reduces potential exposure to children, pets, and livestock

Code	Description	Packaging	Box
CLS-100505102	Starbar fly bait station	1	12

Starbar® Premium Fly Bait

Starbar's Premium Fly Bait effectively eliminates house flies in and around agricultural buildings. This enhanced fly bait contains the MUSCAMONE attractant, which encourages both male and female flies to stay near treated surfaces and feed on the bait.

Apply the bait or place it in a bait station at a rate of 250 g per 100 m² in areas where flies gather. Suitable for use in and around agricultural facilities such as poultry houses, dairies, barns, pig barns, livestock buildings, feedlots, and kennels.

ACTIVE: Methomyl 1.000% – (Z)-9-Tricosene 0.049%

Code	Description	Packaging	Box

PESTICIDE LICENSE REQUIRED

SABER® Insecticide Ear Tags

Insecticide ear tags designed to control horn flies and reduce face flies on beef cattle and non-lactating dairy cows. They contain a new generation of bioactive ingredients that are more effective than conventional fly tags. A single tag is sufficient to provide full protection against both face flies and horn flies.

USE:

For beef cattle and non-lactating dairy cows.

CONTROL: Designed to control horn flies and reduce face flies. One tag provides effective protection.

ACTIVE : Lambda-cyhalothrin 10%

Code	Description	Packaging	Box
MK055065	SABER Fly Tags box/20	20	15

PESTICIDE LICENSE REQUIRED

ECTIBAN 25® Surface Fly Treatment – 473 mL

Surface fly treatment made from an emulsifiable concentrated pyrethroid, designed for surface application to control horn flies, face flies, black flies, mosquitoes, and lice.

USE:

Concentrated insecticide. Apply as a surface spray in milking parlours, holding areas, poultry houses, stables, barns, and pig barns.

CONTROL: Horn flies, face flies, black flies, lice, and mosquitoes.

ACTIVE: Permethrin 240 g/L

Code	Description	Packaging	Box
MK064628	ECTIBAN 25 Fly Killer Surface Spray 473 ml	1	6

PESTICIDE LICENSE REQUIRED

BOSS Pour-On Insecticide RTU

A surface-applied insecticide used to control biting lice, sucking lice, horn flies, and Rocky Mountain wood ticks (*Dermacentor andersoni*) on beef cattle and dairy cows, whether lactating or non-lactating.

USE:

Ready to use. For beef cattle and dairy cows, lactating or non-lactating.

CONTROL: Biting lice, sucking lice, horn flies, and Rocky Mountain wood ticks.

CIT Solar Outdoor Insect Trap

Enjoy reliable protection against flies, biting mosquitoes, moths, and other flying insects with this high-performance solar trap. Its powerful 1,000-V high-voltage grid instantly eliminates pests attracted by the strong UV light, ensuring peaceful evenings anywhere.

Fully autonomous, it recharges using sunlight and provides up to 8 hours of nighttime operation. Its automatic sensor switches on the UV LED as soon as dusk falls. Designed to withstand water splashes (IP24), it is suitable for both indoor and outdoor use.

Versatile and easy to install, it comes with both a ground stake and a tabletop stand. 4 W LED – 2200 mAh battery: everyday power and efficiency.

Code	Description	Packaging	Box
299948	CIT Outdoor Solar Insect Trap	1	3

CIT UV Insect Trap with Fan

This fan-suction insect trap provides clean and effective protection against mosquitoes, flies, moths, and other flying insects. Attracted by the UV LED light, pests are drawn into the collection chamber, where the airflow dehydrates them — a 100% chemical-free, non-toxic solution. Designed for indoor use in areas up to 40 m², it provides discreet and continuous protection.

The removable collection container detaches easily, allowing dehydrated insects to be discarded with organic waste. Its long-life UV LED lamp offers up to 15,000 hours of operation, ensuring long-lasting protection with minimal maintenance.

Application Recommendation:

For optimal effectiveness, place the trap in a dark area, approximately one metre above the ground. Simply connect it to a power source—the trap will begin operating automatically. The darker the location, the more effective it will be at attracting and capturing mosquitoes.
